

JYOTI SHARMA

Data Engineer | ☎ +91-9811341438 | ✉ jyotisharma.2000.vs@gmail.com | [🌐: LinkedIn Profile](#)

Data Engineer with **4+ years** of experience in designing, developing, and optimizing **scalable data pipelines** using **Azure Data Factory (ADF)**, **Databricks**, and **Apache Spark**. Proven track record of improving data workflow efficiency by **20–40%** through automation and performance tuning. Skilled in **data integration**, **ETL processes**, and **big data technologies** across **Telecom** and **Healthcare** domains. Adept at **Python** and **SQL**, with a strong problem-solving mindset and a focus on delivering **production-ready, high-performance solutions** in collaborative, fast-paced environments.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, C++, C
- **Distributed Computation Frameworks:** Apache Hadoop, Apache Spark
- **ETL & Data Integration:** Azure Data Factory, Databricks
- **Databases & Connectors:** MySQL
- **Data Warehouse**
- **Distributed Computation Frameworks:** Apache Hadoop, Apache Spark
- **AWS Services:** S3, Lambda
- **Control Systems and Documentation:** Git, Jira, Confluence
- **Domains:** Telecom, Healthcare

WORK EXPERIENCE

DATA ENGINEER – *Accenture*

Jan 2025 – Present

- **Project:** Telstra Hopper
 - **Designed** and **optimized** over *10+ pipelines* in **Azure Data Factory (ADF)**, integrating complex SQL queries to improve data ingestion and transformation efficiency by **~25%**.
 - **Developed** and executed advanced **SQL scripts** to enable smooth and accurate data migration from **ADF** to **Databricks**, reducing manual intervention by **30%**.
 - **Implemented** scalable workflows in **Databricks** for high-volume data processing, cutting overall transformation time by **~20%**.
- **Project:** Kaiser Permanente
 - **Engineered** and deployed *15+ ETL pipelines* using **ADF** to ingest, transform, and load data from multiple disparate sources into **Azure SQL Database** and **Azure Data Lake**, boosting delivery speed by **~35%**.
 - **Automated** complex data cleaning and transformation workflows using **Python** and **PySpark** on **Databricks**, increasing processing accuracy by **~18%**.
 - **Monitored** and tuned pipeline performance, implemented **logging frameworks**, and executed **data quality checks**, reducing error rates by **~40%** in production.
 - **Developed** automated **SQL-based reporting pipelines** to ensure data integrity and provide real-time insights, cutting reporting lag by **50%**.

SYSTEM ENGINEER - *Tata Consultancy Services (TCS)*

Dec 2021 – Jan 2025

- Design and supports **end-to-end data pipelines** using **ETL processes**, enabling reliable ingestion and transformation of enterprise data.
- **Integrated** third-party data sources, using **gRPC** and **HTTP/2** servers, enabling high-performance, low-latency data exchange for analytics and reporting use cases.
- Built and maintain **RESTful APIs** data services to integrate multiple upstream and downstream systems, improving data availability and reducing integration effort by **~30%**.
- Automated operational data workflows and monitoring scripts using **Python**, eliminating *50+ hours/month* of repetitive manual work.

EDUCATION

Bachelor of Technology (B. Tech.)

Guru Gobind Singh Indraprastha University

Aug 2018 – Aug 2022

RECENT ACHIEVEMENTS

Microsoft Azure Fundamentals (AZ-900) and **Databricks Certified Data Engineer Associate**
